UNC CHARLOTTE MASTER OF HEALTH ADMINISTRATION

Contact us at MHAProgram@uncc.edu & publichealth.uncc.edu

Our **mission** is to develop healthcare leaders prepared to advance health equity and well-being in an urbanizing world.

We **value** collaboration, community engagement, diversity, innovation, professionalism, health equity, and social justice.

We pursue our mission and values through education, research, and service that:

Gives students the knowledge, skills, and values needed to lead dynamic health systems.

Creates knowledge needed to lead people and organizations providing health services.

Increases the diversity of health services leaders, with a special emphasis on individuals and groups historically underrepresented in graduate education.

Promotes the public's health.

UNIVERSITY OF NORTH CAROLINA
CHARLOTTE

Master of Health Administration

Department of Public Health Sciences

Why Choose a UNC Charlotte MHA?

According to the U.S. Bureau of Labor Statistics (2020), medical and health services managers earned a median salary of \$104,280 with those practicing in general medical and surgical hospitals earning significantly more. Trends point to rapid change confronting health care administrators who will operate in new and diverse health care delivery organizations. The field is expecting to see a 32% growth in employment over the next 10 years.

Our grounding in the Department of Public Health Sciences prepares and positions our students to thrive in both clinical and population health settings.
